

Quality Policy Statement

The Quality Management System covers all activities carried out by AM Electrics (Renewables) Ltd relating to the supply, design, installation, set-to-work and commissioning of its electrical works.

- AM Electrics (Renewables) Ltd is committed to meeting our customers' expectations of performance, quality, price and delivery;
- We aim to fully understand our customers' requirements and provide products and service to meet those needs;
- We promote innovation and continually review advances in technology, which can lead to the improvement of our products;
- We encourage the development of our staff through skills training;

We will plan and manage the processes necessary for the continual improvement of the QMS through the establishment of objectives, the planning of the process, the provision of resources and information needed to carry out the process.

We will monitor related measures needed to assess effectiveness and efficiency, and the identification and implementation of actions needed to achieve desired results.

Our quality system will be developed to meet the requirements of BS ISO9001 and will provide the framework to control and monitor our activities to continually improve our systems, products and services to our customers.
